PRODUCT
SOLUTIONS

THE DEFINITIVE RANGE OF PRODUCTS AND SOLUTIONS FOR THRIVING BUSINESSES

Our product range makes its presence felt across varied commercial categories through unsurpassed efficiency, proven robustness and a deep understanding of business needs. Our commitment extends beyond hardware provision, and we simplify businesses with our comprehensive, cloud-based solutions that integrate hardware and software components into a streamlined offering.

Embracing the era of digital transformation, **our TVS-E Pay, a user-friendly billing solution, empowers small and medium-sized retail businesses to optimize operational efficiency and maximize profitability.** We have established strategic partnerships with leading software companies, allowing us to deliver comprehensive software solutions bundled with our offerings in the groceries, food, and beverages industries.

EMPOWERING BUSINESSES WITH TURNKEY CUSTOMER SUPPORT SERVICES

CUSTOMER
SUPPORT
SERVICES

CUSTOMER SUPPORT SERVICES at TVS Electronics are not limited to one token service or two. They span a vast spectrum of offerings supported by robust repair infrastructure, trained and qualified professionals and our credibility honed over decades. The wheels of business turn on the axle of customer satisfaction, and we ensure that the course is smooth.

4. We offer end-to-end warranty management solutions to Global OEMs of IT products, smartphones, and personal gadgets. Our understanding of business needs has led us to create appropriate infrastructure for top brands which translates into a seamless plug and play model for them.

TVS-E TUMAKURU MANUFACTURING EDGE

Manufacturing

With cutting-edge manufacturing technology and skilled professionals in Tumakuru, we meet your diverse needs with precision and agility

Domestic and Global Sourcing

We source high-quality materials and components at competitive prices to deliver reliable and cost-effective solutions

- Vendor Support & Management
- SKDs & Spares

Repair

With our expert repair capabilities, we can quickly diagnose and fix issues with your products, minimizing downtime and maximizing productivity

Product Design

With a team of experienced designers and engineers, we deliver comprehensive product design services and transform your ideas into innovative and efficient design solutions

Experience the power of TVS-E products and solutions for enhanced operational efficiency and profitability.

Report

The background of the entire page is a photograph of a woman with long dark hair, wearing a striped shirt and a dark apron, smiling. She is standing behind a counter with a computer monitor in front of her. The background shows shelves stocked with various items, likely in a retail or grocery store. The image is overlaid with large, abstract, wavy shapes in shades of pink, orange, and red. In the top right corner, there is a white circle containing the text 'THERMAL RECEIPT PRINTERS'. On the right side, the text 'A New Standard in Billing' is written in a white, elegant script font. In the bottom right corner, there is a list of four icons with corresponding labels: a ticket icon for 'Ticketing', a receipt icon for 'Billing', a storefront icon for 'Retail', and a bank building icon for 'Banking'.

BARCODE SCANNERS

Demonstrating Efficiency With Every Transaction

Ergonomic Design

Robust Build Quality

Ultra Scan Decoding
Technology

High Sensitive Image Sensor

Direct Plug and Play

BS-L100 PLUS

FEATURES

-  1D laser barcode scanner
-  1.5 m drop resistance
-  Powerful scanning performance
-  Plug and play design

BS-C103g

FEATURES

-  Scan speed of 350 scans per second
-  Capable of scanning **3mil** Barcodes
-  1D CCD imager scanner with unsurpassed penetrability
-  Capable of scanning damaged and low contrast codes

BS-C101 STAR

FEATURES

-  Express speed at 330 scans per second
-  1D CCD Imaging technology
-  Durable and Strong design
-  Enabled with ultra scan-decoding technology
-  Plug and play - easy to install

BS-L150s WL 1D LASER

FEATURES

-  2.4 Ghz wireless laser barcode scanner
-  Big storage ability of 4MB
-  Range 50-80 meters
-  Offers accurate aiming and hassle free scanning
-  Ergonomically designed for ease of use

BS-i201s BT

Bluetooth Scanner

FEATURES

-  CMOS Technology
-  Print Contrast 20%
-  Drop Resistance 1.5 M

BS-i201s WL

FEATURES

-  Economical 2D wireless scanner.
-  40 meters line of sight.
-  Supports offline storage : 512k characters

BS-i201g Lite

FEATURES

-  Scan speed : 250 scans/sec
-  Print Contrast 20%
-  Drop Resistance 1.2M

BS-i201g

FEATURES

-  Scan speed : 300 scans/sec
-  IP54 Protection
-  Durable and Reliable design

BS-i203g

FEATURES

-  Enhanced high resolution sensor for rapid and precise scanning
-  High decoding ability to read damaged as well as low contrast barcodes
-  Reads secure high density QR codes
-  Superior barcode reading and image capture
-  IP 54 Protection
-  Built with high durability, designed to withstand 1.8 MTS drop

BS-i203s BT Lite

FEATURES

-  Scan Speed : 300 scans/sec
-  Instant charging via cradle
-  Built-in 512K memory can store more than 10000 barcodes
-  Transmission distance of 40 meters via wireless Bluetooth

BS-i203g+ BT

FEATURES

-  Wireless Barcode scanner for UIDAI (Aadhaar QR reader)
-  Built-in 512K memory can store more than 10000 barcodes
-  Higher Battery capacity of 2500 mAh
-  2.4Ghz Bluetooth Wireless Connectivity
-  Bluetooth Communication Distance 100m (in vacant space)

BS-i203z Platina

FEATURES

-  Superior Scanning performance with High Resolution Imager
-  High Scan Speed : 60 fps
-  Supports Dual Interface : USB & RS232
-  Rugged Housing that is suitable for industrial application

BS-i302g

FEATURES

-  Omni directional scanner (Desktop scanner)
-  Scan Speed: 2500 scans/sec
-  Superior motion tolerance
-  Auto trigger
-  IP54 Protection
-  Scans low contrast and damaged barcodes also Premium Resolution: 1280*1024

BS-m202g

Mobile 2D Barcode Scanner

FEATURES

-  Ergonomic Design and More Comfortable Grip
-  In-built Power bank 1500mah
-  Data Storage upto 50,000 barcodes
-  Supports Bluetooth HID, SPP,& BLE protocols
