

# THE LIGHT TO PREVENTION.

## Presenting UV Light Wand MD-U204i

UV light wand uses advanced UV-C light technology to significantly disinfect and reduce viruses, odour causing bacteria and other allergens, on surfaces at home or while traveling including gadgets and surface that are difficult to sanitize.

### Perfect for

Cell phones, remote control, keyboard, faucets, toys, music players, bedspreads and footwear.

Hold wand approximately 1-2 Inches from Surface and gradually move the wand over the entire surface. Allow the light to stay on each area for 25-30 Seconds to ensure optimum exposure.

Auto turn-off feature  
(When turned upwards)

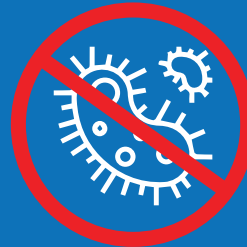

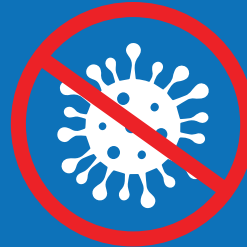

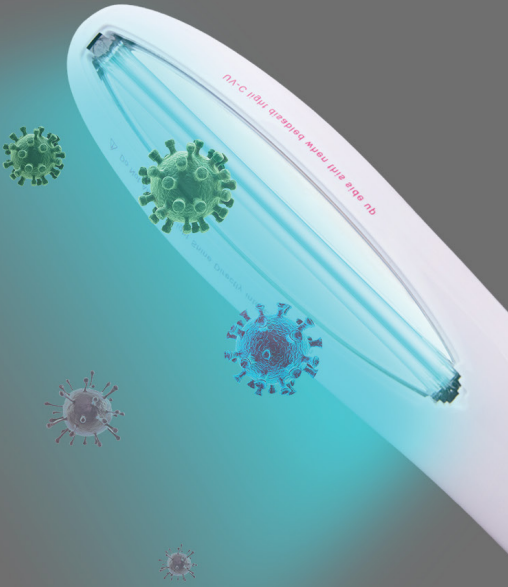

Time settings for  
disinfection period

Available with Display  
for easy operations

Quartz glass lamp tube  
High transparency and more  
efficiency in disinfection than LED

### Specifications

Model Number	MD-U204i
Dimension (mm)	343X63X42mm
Weight	150g
Input Voltage	6V
Spectrum	254nm
Time Settings	5/15/30mins
Lamp Life Span (hrs)	20000
Auto shut off mode	Available
Power	4W
Battery capacity	4* AA battery
Casing Material	ABS
Tube Material	quartz glass

### WARNING
