GUIDELINES FOR BUYING WHEAT IN PUNJAB, HARYANA, CHANDIGARH Procurement norms of broken, shrivelled grains get a breather

SANDIP DAS
New Delhi, May 14

THE FOOD MINISTRY has relaxed the norm for wheat procured by the Food Corporation of India (FCI) and state government agencies in Punjab, Haryana and Chandigarh by increasing the percentage of shrivelled and broken grains to 18% from the existing norm of 6%.

Earlier, the Centre had sent two teams to Punjab to assess the extent of the problem of shrivelled wheat grain procured by government agencies from farmers. Similar request for relaxation in procurement norms for shrivelled and broken grains was received from Haryana as well.

"In order to reduce hardship of farmers and to avoid distress sale of wheat, the limit of shrivelled and broken grains may be relaxed," a communication by the food ministry to Punjab, Haryana and Chandigarh stated.

Sources said that food ministry officials had visited various mandis in the Punjab to take wheat samples for ascertaining the extent of shrivelled

STATUS QUO

Government agencies have procured 18 MT of wheat from farmers, mostly in key-growing states of Punjab, Haryana, Uttar Pradesh and Madhya Pradesh, till Friday

This procurement of wheat is a decline of 49% compared to the same period in the previous year

The procurement of wheat in Haryana, Punjab and Chandigarh have been completed

wheat grain caused by the heatwave in the later part of the March, considered as the ripening time for the crop.

The ministry had sent a team to Punjab last month to study the extent of shrivelled grain. The team, in its report, stated that extreme heat in March and early April has increased shrivelled grain percentage to 10-20% in the state, as against 6% prescribed

by the FCI. Last month, the Punjab government urged the Centre to relax the quality norms for wheat procurement as a higher than prescribed level of shrivelled grains in the state's current crop has led to a fall in purchases.

Government agencies have procured 18 million tonne (MT) of wheat from farmers, mostly in key growing states of

Punjab, Haryana, Uttar Pradesh and Madhya Pradesh, till Friday — a decline of 49% compared to the same period in the previous year.

Five agencies, including FCI, Markfed and Pungrain, have been entrusted with the wheat procurement at MSP from farmers in Punjab, where more than 9.55 MT has been purchased so far against 13.22 MT purchased a year ago. Offi-

cial said procurement in Haryana, Punjab and Chandigarh have been completed.

In Haryana, 4.07 MT has been procured by agencies, while in Madhya Pradesh, more than 4.14 MT has been purchased.

In other wheat-growing states like Uttar Pradesh, Rajasthan, Uttarakhand and Gujarat, the volume of grain procurement has been marginal.

Food secretary Sudhanshu Pandey recently said the lower output, coupled with private purchase from farmers by exporters, and traders holding on to the stocks would lead to a 55% year-on-year decline in wheat procurement in the 2022-23 marketing year to 19.5 MT. This means the purchases of the cereal by the government at MSP would hit a 13-year low this year.

The government has revised the estimate of wheat production in the 2021-22 crop year (July-June) to 105 MT, down from its February projection of 111.32 MT, based on reports that the early onset of summer in March has adversely impacted crop yield.

Foodmin revises allocation of wheat to 12 states for next 10 months

SANDIP DAS
New Delhi, May 14

AFTER A SHARP drop in wheat procurement this session leading to drop in stocks, the government has reduced allocation of wheat provided to 12 states for the implementation of National Food Security Act (NFSA) during June 2022 till March 2023. Under the revised guidelines, allocation of rice has been increased under NFSA.

A communication by the food ministry on Friday has stated that revision in allocation of rice and wheat has been done for the 'management of food-grains stock as per the norms'.

Allocation of wheat under NFSA has been reduced for Bihar, Jharkhand, Odisha, West Bengal, Delhi, Uttar Pradesh, Gujarat, Maharashtra, Madhya Pradesh, Tamil Nadu, Uttarakhand and Kerala to only 85,320

NFSA AMBIT

Allocation of wheat under NFSA has been reduced for the 12 states to only 85,320 tonne during June 2022 and March 2023 from the previous norm of 0.21 MT

The allocation of rice to these states has been increased to 2.04 MT from 1.9 MT

tonne during June 2022 and March 2023 from the previous norm of 0.21 million tonne

(MT). The allocation of rice under NFSA to these states has been increased to 2.04 MT from 1.9 MT.

The government's wheat procurement in the current year may be less than half the level last year, as market prices remain above the minimum support price (MSP) fixed by the government. Purchases of the grain by the Food Corporation of India (FCI) and other government agencies at the MSP stood at close to 18 MT on Friday, down 49% from the year-ago level.

Earlier this month, the government had revised grain allocation under the Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) from May to September 2022.

As per the revised guideline, during the remaining five months of phase VI of PMGKAY, FCI has allocated 3.5 MT of wheat to states as per the earlier

communication FCI was to supply 9 MT of grain.

Rice allocation during May-September this year has been revised to 16 MT against the earlier norm of 10.8 MT.

Launched in 2020 as part of the Covid-19 relief measure, under the PMGKAY scheme 5 kg of grains are provided free every month besides highly subsidised foodgrain to more than 81 beneficiaries under National Food Security Act.

"To mitigate scarcity like situation and to ensure availability of sufficient stocks as per stocking norms, it has been decided to revise allocation during May-September 2022," according to the food ministry's communication to states. This move to allocate more rice than wheat came after wheat stock held with FCI as of May 1 dropped to a five-year low of 31 MT on May 1.

SCI net profit jumps 77% to ₹152 crore

SHIPPING CORPORATION OF India (SCI) on Saturday reported a 77.42% jump in its consolidated net profit to ₹152.16 crore for the fourth quarter ended March 2022.

The state-owned company had clocked a consolidated profit of ₹85.76 crore in the same quarter of 2020-21, it said in a regulatory filing.

Its total consolidated income rose to ₹1,364.62 crore during the quarter under review against ₹900.73 crore in the year-ago period.

PMI Electro to set up its largest electric CV plant in Pune

FE BUREAU
Pune, May 14

ELECTRIC BUS MANUFACTURER PMI Electro is setting up its largest electric commercial vehicle (CV) manufacturing plant in Pune, Maharashtra. PMI laid the foundation stone for the plant at MIDC Chakan Industrial Estate on Friday. The 35-acre facility will be commissioned by August 2023 and will have the capacity to produce 2,500 electric CVs per annum.

PMI operates a manufacturing facility in Delhi-NCR with a production capacity of about 1,500 electric buses per annum. With this expansion in Pune, the total annual manufacturing capacity of PMI will grow to 4,000 electric CVs.

According to Satish Kumar

Jain, managing director, PMI, the strategic location of the facility in Pune gave them access to the Nhava-Sheva port as well as the supply-chain ecosystem in Pune. It also had the logistical advantage to cater to major markets of Maharashtra, Gujarat, Karnataka and Madhya Pradesh.

PMI has entered into a collaboration with Foton, a global commercial mobility company for technology and designing commercial mobility solutions, in India. PMI Electro offers three models for standard, midi and mini buses in the country and has an order of 1,000 electric CVs under FAME-II.
